Co.'s controlled companies are the following:

	Tarrytown Terminal Corp.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The co. directly and through its subsidiaries does practically the entire gas and electric light and power business in the boroughs of Manhattan, Bronx and Queens, and in Westchester County.

In 1906 a law was passed reducing the price in New York City to 80 cents per 1,000 cu. ft., beginning May 1 1906, except in outlying districts. V. 82, p. 572, 807, 931; V. 90, p. 301. In Jan. 1909 the U. S. Supreme Court held 80-cent feature of law to be valid until given a fair trial. In Jan. 1919 the company brought suit to have the 80 cent rate declared confiscatory. Final report declaring the 80-cent rate confiscatory was handed down by Special Master Abraham S. Gilbert in May 1920. A temporary injunction restraining the authorities from enforcing the 80-cent rate was handed down on June 29 1920. V. 111, p. 76. Federal Judge Learned Hand on Aug. 4 1920 and Judge Julius M. Mayer in April 1921 handed down decisions upholding in nearly all respects the recommendations of Special Master A. S. Gilbert in the case of the company to the effect that the 80-cent gas law was confiscatory. V. 111, p. 592; V. 112, p. 1620.

The company, acting on a decree signed on Feb. 28 1921, by Federal Judge Hand refusing the application of the State and city officials that the court fix a definite rate for the continuation of the supply of gas after March 1, announced that the rate for gas would be increased from $1.20 to $1.50 per 1,000 cu. ft., effective March 1 1921. Beginning Aug. 1 1921 it was announced rates would be reduced to $1.25 and beginning Oct. 1 1922 the rate was further reduced to $1.15. V. 115, p. 1104

The U. S. Supreme Court in a unanimous decision handed down March 6 1922 held that the 80-cent gas law of 1906 is confiscatory. The Supreme Court also rendered a similar decision in the case of the New York & Queens Gas Co. and the Kings County Lighting Co., holding in their case that the $1 rate of 1916 was also confiscatory.

The Court also ordered that all impounded funds be promptly released to the gas companies subject only to deductions of such costs as are clearly assessable to the prevailing party. The case was remanded back to the lower court for further proceedings in conformity with the decree. [The full text of the decision is given in V. 114, p. 1023.]

In future, according to the decision, the N. Y. P. S. Commission shall fix rates that are not confiscatory and that are in conformity with the Court's decision. V. 114, p. 1023, 1067. Compare V. 119, p. 2877 V. 120, p. 329.

Adoption of B. T. U. standard, V. 115, p. 1104; V. 116, p. 520.

James G. Graham, special master, appointed by the Federal District Court to hear the action brought by the Consolidated Gas Co. of N. Y., N. Y. & Queens Gas Co. and by the Bronx Gas & Elec. Co. against the P. S. Commission and Att'y-Gen. Carl Sherman in Jan., June 1924 and in July handed down an opinion in which he holds that the $1 gas law passed by the New York State Legislature at the 1923 session is unconstitutional and confiscatory as applied to the plaintiff companies. V. 118, p. 440. Opinion of special master upheld by Federal Court. V. 120, p. 2145. Appeal by Attorney-General, Supreme Court decision, awaited in June or during the latter part of 1926. V. 122, p. 1161.

On Aug. 21 1925 bought the Academy of Music Bldg. on Irving Place, New York City. V. 121, p. 1460.

SALT RIVER VALLEY WATER USERS' ASSOCIATION

ORGANIZATION.—A corporation organized in 1903 under the statutes of the State of Arizona.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Operates the Salt River Project, a Federal irrigation project comprising 240,000 acres, in the Salt River Valley of Arizona. The Salt River project, comprising the Roosevelt Dam and water distribution system, was constructed by the United States at a cost of over $10,000,000. In 1917 the Association took over the maintenance and operation of the dam under the advisory supervision of the U. S. Reclamation Service. The present hydro-electric plants of the association have an installed capacity of 33,500 h. p., which will be increased to 87,500 h. p. through the construction of two additional plants and two additional dams below Roosevelt Dam. The new plants will utilize the storage capacity of Roosevelt Lake, using the same water that passes through Roosevelt Dam power house before being finally used for irrigating the 240,000 acres of productive farm lands of the Association, the stockholders of which are all land owners in Salt River Valley. The entire 40,000 h. p. output of the new plant has been sold under a 25-year contract to Inspiration Consolidated Copper Co., the largest consumer of electric power in Arizona, and the output from the other new plant has been sold to Central Arizona Lt. & Pow. Co.

Stock.—One share of stock is allotted to each acre of land and cannot be separated from it.

Guaranteed Bonds.—The Association also guarantees as to principal and interest $665,000 6% bonds of the Roosevelt Agricultural Impt. Dist. No. 1 (due $35,000 yearly on Aug. 1 from 1936 to 1954 incl.) and $1,578,000 6% bonds of Agricultural Impt. Dist. No. 2 (due serially 1939 to 1954), for details of which see V. 119, p. 1659, and our "State and Municipal" Compendium, Part II, of Dec. 27 1924 (p. 101). Both of the above mentioned districts are located entirely within the lands of the association and are a part of it.

Bonds.—The serial bond issues of 1923 and 1924 listed above are direct and general obligations of the association, additionally secured by an assessment already levied and recorded against all of the lands of the stockholders of the association. These assessments are a lien against the land ranking equally with the assessments securing the two issues of Impt. Dist. bonds guaranteed by the association and those levied to repay the U. S. Govt. construction charges and prior to all mortgages including those which secure Federal Land Bank and Joint Stock Land Bank bonds. The serial issue of 1924 and the two guaranteed issues, known as the "Horse Mesa Dam" bonds, are further secured by a first lien against the hydro-electric revenue developed by these issues and by pledge with the trustee of the Inspiration Copper Co. contract. Hydro-electric revenue of the association was reported as $650,000 in 1924 and is estimated at $2,300,000 annually on completion of present additions in 1926. All issues are non-callable.

The bonds of 1923 mature $180,000 annually Feb. 1 1928 to 1947. $1,800,000 were offered by Banks, Huntley & Co., M. H. Lewis & Co., Carstens & Earles, Inc., &c., in May 1923, at 99 and interest, to yield about 6.10%. V. 116, p. 2018.

The bonds of 1924 mature serially Aug. 1 1938 to 1943. Interest at Farmers' Loan & Trust Co., New York City, and Anglo-California Trust Co., San Francisco. $2,500,000 were offered in Oct. 1924 by Rutter & Co., New York, Anglo London Paris Co., San Francisco, &c., &c., at 100 and interest.

V. 117, p. 522. Answer was filed by the co. and its trustees in Oct. 1923. For details see V. 117, p. 1662. x These issues have been extended to the dates here given in accordance with plan. The extended issues, which in all cases formerly bore 5% int., now bear 6% with the exception of the New Bedford Middleboro & Brockton St. Ry. 1st 5s which continued at the old interest rate. These issues, with the exception of the last mentioned, are callable at 103, and during the five years preceding maturity at 101 and int. The New Bedford Middleboro & Brockton 1st 5s are callable at par.

y Originally matured Dec. 1 1924 but company exercised option provided in reorganization plan, and extended $3,352,000 of this issue for five years to Dec. 1 1929, the balance being paid off. The extended bonds are red. on any int. date at 103 and int. up to and incl. date two years prior to maturity, and thereafter at 101 and int. V. 117, p. 2542.

Stock.—All classes of stock have full voting rights, except that the com. stock had no voting rights until Jan. 1 1921, nor has it thereafter at any time when $5 of divs. upon the adjustment stock are in default. Common stock is issuable under the plan to the amount permitted by the special act as determined by reorganization manager and for any further amounts found necessary by the reorganization managers for other purposes. The 1st pref. stock and the *sinking fund* stock are cum., ranking equally and pro rata for dividends and in liquidation, and preferred as to dividends, and also as to par and accrued dividends in liquidation, over the pref. B stock, the adjustment stock and the com. stock. Issue of 1st pref. stock is not limited and may be called all or in part (when drawn by lot), on any dividend date at 120 and divs. Any subsequent issue of this stock shall be entitled to such divs. as shall be fixed at time of issue thereof. Stock of this issue in addition to the amount shown as outstanding may be issued (a) in exchange, $ for $, for Bay State Ry. bank loans and coupon notes whose holders amy choose 1st pref. in preference to sinking fund stock; (b) $ for $ for Bay State claims not otherwise provided for; (c) compensation of committees, &c. The sinking fund 6% stock is callable, all or in part, on dividend day at par and int. in order of series, numbers 1 to 21, inclusive, by a sinking fund to which the company is to pay each year an amount equal to the series due Feb. 15 of such year, before declaring any dividends on or making any purchase of any preferred B stock, adjustment stock or common stock. The shares to be redeemed shall be determined by lot in case funds are not available for the payment of any series in its entirety. Of the sinking fund stock $1,425,000, including all of the *first six series* and part each of *series 7 to 15*, were allocated to bank loans and divided among the bank creditors in proportion to their claims. Series 1 to 14 are for $150,000 each. The remaining $1,814,000 of this stock being the remainder of Series 7 to 15, and all of Series 16 to 21, were allocated to the coupon notes in the order of the maturity of the notes, beginning with $57,000 of the 7th series for the 1918 maturity, and increasing gradually to $202,000, being the whole of the 21st series, for the 1932 maturity. *Under the terms of a readjustment plan all sinking fund stock with the exception of $23,500 par has been converted into 1st pref. and the sinking fund features eliminated.* Pref. B stock ranks ahead of the adjust. stock and the com. stock. Dividends on this Pref. B are payable in cash or in com. stock. Call. all or in part (when drawn by lot) on any div. day at 110 and int. The rate of the dividends on this stock which in any year are paid in com. stock (1) shall not exceed the rate of the divs. on the adjust. stock which in such year are paid in com. stock; unless all the divs. on the adjust. stock in such year, if any, are paid in com. stock, and (2) shall be less by at least 2% than the rate of the divs. on the com. stock which in such year are paid in com. stock, unless all the divs. on the com. stock in such year, if any, are paid in com. stock. The 5% adjust. stock is preferred over the com. stock. Call. all or in part at par and int. on any div. date. The rate of the divs. which in any year are paid in com. stock shall be less by at least 2% than the rate of the divs. on the com. stock which in such year are paid in com. stock, unless all divs. on the com. stock in such year, if any, are paid in com. stock. Stock of this issue, in addition to the amount shown above as outstanding, could be issued in exchange, par for par, for claims against Massachusetts Electric Companies participating in the plan other than claims in respect of securities expressly provided for.

Bonds.—The serial ref. mtge. 6s, ser. "SA," mature $50,000 each Jan. 1 1920 and 1921 and $300,000 1922-1929, inclusive, $1,600,000 have been retired. Ser. These bonds are issued under co.'s ref. mtge., which will cover substantially all of the properties subject to less than $10,000,000 underlying bonds and undisturbed securities. The interest on the serial 6s is a charge ahead of the interest on approximately $18,900,000 ref. mtge. bonds issued under the same mtge. Call. at 105 on any interest date on 60 days' notice. The 4½% ref. mtge. bonds are red. at 105 and int. on any int. day up to and incl. July 1 1943, at 104 and incl. int. in 1944, at 103 and int. in 1945, at 102 in 1946, at 101 in 1947. The 5% ref. mtge. bonds are red. at 110 and

int. on any int. day up to and incl. July 1 1938, at 109 and int. in 1939, at 108 in 1940, 107 in 1941, 106 in 1942, 105 in 1943, 104 in 1944, 103 in 1945, 102 in 1946, 101 in 1947. The 6% ref. mtge. bonds are red. at 103 and int. on any int. date up to and incl. Sept. 15 1926 and at 100 and int. on March 15 1927.

Additional *ref. mtge. bonds* other than the ref. mtge. serial bonds, and the other bonds issuable under the plan, may be issued to an amount not exceeding at par value 60% of the cost of future add'ns and impts., but only when the annual net earnings available for the payment of interest on the ref. mtge. bonds are at least 1¾ times the interest charges on all ref. mtge. bonds outstanding and applied for and on all prior lien issues. This net earnings provision may, by the firm of Lee, Higginson & Co. as now or hereafter constituted, Harris, Forbes & Co., Inc., or its successor, and the firm of William A. Read & Co., as now or hereafter constituted, be waived in respect of any issue made before Jan. 1 1929. In the discretion of the reorg. mgrs. the ref. mtge. may provide that it shall not be foreclosed for a period of 10 years, and in such event a gen. mtge. shall be created subject to the ref. mtge. and covering the same properties and securing prin. and int. of all ref. mtge. bonds other than ref. mtge. serial bonds, and in the discretion of the reorg. mgrs. the int. or prin. or both of the ref. mtge. serial bonds. Int. on the ref. mtge. serial bonds so far as secured by this gen. mtge. may be accorded priority thereunder over any other obligation secured thereby, but subject to this exception all obligations secured by said gen. mtge. shall be equally secured thereby. The said gen. mtge. shall be subject to foreclosure at any time in case of default.

The *Bay State St. Ry. equip. notes* were issued to provide, in part, for the payment of 200 new semi-conv. P-A-Y-E cars, costing $1,631,000. NEW ENGLAND INVESTMENT & SECURITY CO.

CONTROL.—The $100,000 common stock of this company formerly held by Sanderson & Porter was acquired by a preferred stockholders' committee (V. 99, p. 1215) in Oct. 1914. Holders of about 34,000 shares of pref. stock subscribed $10 for every share of pref. owned in order to effect the purchase. V. 99, p. 609, 675, 1215. It is stated that about $1 75 per share was returned to subscribers.

The New England Navigation Co. owns the $13,115,000 funding gold notes, and in pursuance of the order of the U. S. Department of Justice the notes were to have been sold by July 1 1919, but in March 1919 Judge Mayer granted an extension of time to July 1 1921. A further extension to April 1 1923 was granted. NEW YORK NEW HAVEN & HARTFORD RAILWAY

(Trolley Lines).

The New York New Haven & Hartford's interests in trolley lines have been very extensive, but under an agreement reached with the U. S. Government in 1914 the company pledged itself to dispose of the same.

*The investments in the trolley companies held by the N. Y. N. H. & H., which are to be disposed of under the decree of the Federal Court (date by which New Haven is to dispose of these holdings has been extended from year to year, latest extension being to April 1 1926), are as follows:

Berkshire Street Ry.	The Vermont Co.
Connecticut Co.	Westchester Street RR.
New York & Stamford Ry.	Shore Line Electric RR. of N. Y.

* The Rhode Island Co. was originally included in this list, but the stock of that company was sold on Sept. 3 1920 at public auction—see that company on subsequent page.

On Nov. 20 1925 Federal Judge Francis A. Winslow granted the application of the co. to resume control of the trolley lines in Westchester County and Southern New England, viz., the Connecticut Co., the New York & Stamford Ry., the Berkshire Street Ry. and the Vermont Co. These lines were separated from the New Haven System by the Sherman Law of 1914. See for full details V. 121, p. 2635. As a result of this decision, co. filed, on Nov. 24 1925 a petition with the Mass. Secretary of State asking for legislation to enable the co. to acquire and hold the securities and property of the New England Investment & Security Co. and its subsidiary companies. V. 121, p. 2635.

The N. Y. N. H. & H. also owns $4,984,938 of the $5,005,250 stock of the N. Y. Westchester & Boston Ry., an electric road, which it is under no obligation to dispose of and which will be developed as part of the New Haven system.—V. 99, p. 270, 604, 1125, 1210; V. 100, p. 642; V. 104, p. 2010; V. 121, p. 2270, 2518, 2635.

CONNECTICUT COMPANY.

Control Passes to Trustees.—On Oct. 27 1914 the $40,000,000 capital stock of this co. held by New England Navigation Co. was transferred to five trustees, pursuant to the requirements of the U. S. Dept. of Justice. V. 99, p. 1451. The New Haven Co. has bound itself to sell the stock, and the trustees were to use their best endeavor to complete the sale before July 1 1919, but in March 1919 Judge Julius M. Mayer granted an extension of time until July 1 1921. V. 108, p. 1275. In April 1921 the time was again extended, by order of the Federal Court, to July 1 1922. V. 112, p. 1616. In March 1922 the court further extended the time to April 1 1923. Since extended to April 1 1924, then to April 1 1925 and again to April 1 1926. The trustees are: Judge Walter C. Noyes of Old Lyme, Leonard M. Daggett of New Haven, Charles Cheney of South Manchester, Morgan B. Brainard of Hartford and Chas. G. Sanford of Bridgeport. See remarks under N. Y. N. H. & H. RR. Co. above and V. 98, p. 1000, 1245.

This is the company which operates the trolley lines in Connecticut controlled by the N. Y. N. H. & H., and which formerly were comprised in the Consolidated Railway Co.

Return of Line to N. Y. N. H. & H. RR.—See V. 112, p. 1977; compare V. 116, p. 720. On Nov. 21 1925 lines were returned to N. Y. N. H. & Hartf. RR. See, for particulars, V. 121, p. 2636. The $40,000,000 capital stock of the co. to be turned over to N. Y. N. H. & H. RR., see V. 121, p. 3003.

Operation of Buses.—See V. 121, p. 1568.

(1) CONNECTICUT RAILWAY & LIGHTING CO.

Lease.—Leased for 999 years from Aug. 1 1906 to the Consolidated Ry. Co., which latter has since been merged in the N. Y. N. H. & H. RR. Co. Rental amounted to $975,000 for the year 1906-07 and increased gradually until it reached $1,400,000 in 1915. The common shareholders paid the Equitable Trust Co., trustee, $10 per share on their stock, which, with the surplus rental received under the lease, provides a fund which, it is announced, is sufficient to pay 4½% per annum on both com. and pref. shares. All the stock assented to this arrangement. Preferred shareholders agreed to accept 4% dividends during the term of the lease, instead of 5%. V. 84, p. 507. Cash divs. paid regularly to and incl. June 1 1921. Divs. were then paid in non-interest bearing scrip up to Sept. 1 1922, when cash divs. were resumed. The scrip was redeemed either through payment in cash or conversion into 8% conv. debentures "E." V. 115, p. 649. Subsequent divs. of ½ of 1% monthly have been paid regularly in cash. An initial div. of ½ of 1% was paid Jan. 1 1920 on the 6% Preference B stock. Same rate paid regularly to and incl. June 1921. Cash divs. on com. stock began with the date of organization, Sept. 2 1910, and were paid monthly up to Aug. 1 1914 at the following rates per annum: 3%, 1910; 3%, 1911; 4%, 1912; 5%, 1913; 6%, 1914, and were then suspended until Jan. 1 1916, at which time a distribution of 6% of convertible debentures was made, and on July 1 1916 a further distribution of 3% of convertible debentures. From that time to and including June 1 1921, cash dividends were paid on the common stock at the rate of 6% per annum. Dividends were then paid in non-interest-bearing scrip to March 1 1925, when monthly cash dividends were resumed at the rate of ½ of 1% monthly, and common cash scrip was redeemed in cash. V. 120, p. 451. On Sept. 1 1916 a div. of 2% in com. stock was paid and on Dec. 1 a div. of 4% in com. stock was paid. During 1917 co. declared a dividend of 6% payable in common stock in 1918, 9% in common stock, and in 1919, 12% in common stock. The company paid a dividend of 1¼% in common stock on Feb. 1 1920, placing the dividend at an annual rate of 15%. Stock dividends at this rate were paid regularly to and incl. June 1 1921. Dividends were then paid in non-interest-bearing scrip to Mar. 1 1925, when monthly stock divs. of ½ of 1% were resumed, and all common stock scrip was converted into com. stock. V. 120, p. 451. METROPOLITAN EDISON CO.

Controlled by General Gas & Electric Corp.

Management.—W. S. Barstow Management Association, Inc.

ORGANIZATION.—Formed in Pennsylvania July 24 1922, succeeding company of the same name formed in 1917 through consolidation of the Metropolitan Electric Co. (which had been operating in Reading and vicinity since 1894), the Edison Electric Illuminating Co. at Lebanon, Pa., and the Lebanon Valley Electric Light Co. In addition to its property owned direct, company owns the entire outstanding Common stocks of (a) Pennsylvania Edison Co., Easton, Pa. (which controls Easton Gas Works, Interurban Gas Co., Nazareth, Pa., and Central Broadheads Power Co.; (b) Hanover (Pa.) Power Co. (which controls Hanover & McSherrytown St. Ry.); (c) Gettysburg (Pa.) Elec Co.; (d) York Haven (Pa.) Water & Pr. Co.; (e) Cumberland Valley Light & Power Co., Dillsburg, Pa.; (f) Metropolitan Power Co., Middletown, Pa., and (g) Maryland Pub. Service Co.

In March 1926 the Pennsylvania P. S. Commission authorized the consolidation with the co. of the Hanover Power Co., the Gettysburg Electric Co. and the Cumberland Valley Lt. & Pow. Co. The merger was not to affect any change in existing operating plans. V. 122, p. 1762.

It also owns $750,000 Reading Transit Co. Class B pref. stock, which is paying dividends at the annual rate of 7%.

FIELD OF OPERATION AND CHARACTER OF BUSINESS.—Company supplies electric light and power in an extensive territory in the eastern part of Pennsylvania, serving the cities of Reading and Lebanon, Pa., and surrounding districts, that part directly served including 166 communities, in addition to which power is wholesaled to local companies in 92 large boroughs and towns. It supplies also practically all power used by the Reading Transit Co. Through a system of high-power transmission lines the company controls an inter-connected power system extending from Easton, Pa., and Phillipsburg, N. J., on the Delaware River, southwesterly across Pennsylvania to Gettysburg and Hanover, near the Pennsylvania-Maryland line. As of Dec. 31 1925, the companies had 80,440 electric customers, against 75,031 at Dec. 31 1924. Total population served, 745,000.

Company's franchises and rights are unlimited as to time and without burdensome restrictions. There is no competition of similar class of service.

The properties of company include 320 miles of transmission lines and 418 miles of distribution lines. The principal power plant, located on the Schuylkill River at West Reading, has an installed generating capacity of 69,540 k.w.

The property of the Pennsylvania Edison Co., which operates in and about Easton, Pa., includes its main steam station with a generating capacity of 33,500 k. w., three small hydro-electric plants, together with 137 miles of transmission lines and 343 miles of distribution lines.

The York Haven Water & Power Co., which operates in and about York Haven, York and Middletown, Pa., owns a hydro-electric power plant on the Susquehanna River at York Haven, with a generating capacity of 14,500 k. w.; also 69 miles of transmission lines and 72 miles of distribution lines, including the line connecting with the plant of the Metropolitan Edison Co. at Reading.

Super-Power System.—The Metropolitan Edison properties form a considerable portion of the Pennsylvania-New Jersey power system of the General Gas & Electric Corp. Being interconnected by high-tension transmission lines, they are operated as a super-power system and are included in the Boston-Washington zone of the Super-Power Survey made for the Department of the Interior of the U. S. Government. To add to the power supply of this system, Metropolitan Power Co., a subsidiary of Metropolitan Edison Co., completed and placed in service early in 1925 the first 30,000 k. w. unit of a 200,000 k. w. steam power station on the Susquehanna River near Harrisburg, Pa.; the 2d unit of 35,000 k.w. is to be put into service during 1926.

BUFFALO, NIAGARA & EASTERN POWER CORP.

Mohawk Hudson Power Corp. owns a substantial interest in Buffalo Niagara & Eastern Power Corp.

ORGANIZATION.—Incorp. in New York May 14 1925 for the purpose, among others, of acquiring through stock control the properties of Buffalo General Electric Co., the Niagara Falls Power Co., Niagara Lockport & Ontario Power Co. and the Tonawanda Power Co. Corporation now owns more than 99% of the total issued common stocks of the above 4 operating companies. Corporation obtained the consent of the New York P. S. Commission to hold all or any part of the common stock of each of the above companies. For terms of exchange, see V. 120, p. 2683.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The subsidiary companies are engaged in the production, transmission and distribution of electric energy, principally hydro-electric, in western and central New York, and extending into northwestern Pennsylvania. They serve a highly developed industrial territory extending from Erie, Pa., to and beyond Syracuse, N. Y., and from the Niagara frontier to Bradford, Pa. This territory includes 17 counties in New York and 2 counties in Pennsylvania, and its zone is roughly 300 miles from east to west, and 100 miles from north to south. Within this region over 2,000,000 people are served with light and power and of this number over 400,000 are either direct or indirect customers of the system.

Included in the territory directly served are the cities of Buffalo, Niagara Falls, Lackawanna, Jamestown and Olean, N. Y., and Bradford, Pa., while the cities of Rochester, Syracuse, Lockport, Batavia and Dunkirk, N. Y., and Erie, Pa., are supplied in whole or in part with electric energy through the system's transmission lines.

At the present time the system has a total operating capacity of about 970,000 h. p., of which over 730,000 h. p. is hydro-electric. They hydro-electric power is supplied by the plants of the Niagara Falls Power Co., located at Niagara Falls, on the American and Canadaian sides, Niagara, Lockport & Ontario Power Co.'s plant on the Salmon River, and from their leased plant at Minetto, N. Y., on the Oswego River. Additional hydro-electric power is purchased from the Hydro-Electric Power Commsision of Ontario, most of which is received under long-term contracts.

The capacity of the steam plants amounts to over 240,000 h. p., including the new unit in River Road Station to be put into service during the fall of 1926. The system's largest steam plant is the River Road plant of the Buffalo General Electric Co., with an installed capacity of 126,600 h. p. Niagara Lockport & Ontario Power Co. has a steam plant at Lyons, N. Y. with an installed capacity of 40,000 h. p., and 2 smaller plants; a modern steam plant of 6,000 h. p. at Olean, N. Y., and a gas plant of about 1,500 h. p. at Bradford, Pa.

In addition to these sources of power, interconnections have been made with the Power Corporation of New York system, which operates hydro-electric and steam plants in northern and central New York and supplies cities, villages and towns in and through several counties in that section with the Mohawk-Hudson Power system, which owns and operates both hydro-electric and steam plants in central and eastern New York, and supplies cities, villages and towns in and through several counties in that section; with the Mohawk-Hudson Power system, which owns and operates both hydro-electric and steam plants in central and eastern New York, and supplies cities, villages and towns from central New York east to the eastern boundary of the State (the Mohawk-Hudson Power system also is interconnected with the New England Power system); with the Penn Public Service system, which owns and operates hydro-electric and steam plants in the States of Pennsylvania and Maryland, and with the system of the Hydro-Electric Power Commission of Ontario, at Niagara Falls, Ont.

As a result of these inter-connections, a super-service system unites generating capacities aggregating considerably more than 2,000,000 h. p.

Co.'s system embraces 656 miles of transmission lines on steel towers and 788 miles of lines on wooden poles.

The 6% debenture bonds will be convertible after July 1 1928 at the holder's option into one share of $6 50 preferred stock for each $100 of debentures.

Each option warrant also carries a detachable stock purchase right entitling the holder to purchase one share of the new common stock after Mar. 1 1926 and incl. Sept. 1 1927 for $20; and incl. Sept. 1 1930 for $30.

Future issues of bonds may be either of this series or of other series having such rates of interest, maturity dates and other provisions as the co. may determine.

The indenture contains certain provisions permitting the modification or alteration thereof or of any supplemental indenture with the assent of the co. and of the holders of not less than 85% in aggregate principal amount of the outstanding bonds, not including any bonds owned by the co.; provided that any such modification or alteration shall not permit (*a*) the extension of the maturity of any bond, or the reduction in rate of interest thereon, or any other modification in the terms of payment of such principal or interest, without the consent of the holder thereof; or (*b*) the creation by the company of any indebtedness not permitted by the indenture or of any mortgage or pledge of any of the assets of the company unless the bonds issued or to be issued under the indenture are secured by such mortgage or pledge on an equality with any other indebtedness to be secured thereby.

These percentages are subject to arbitration and adjustment at five-year intervals.

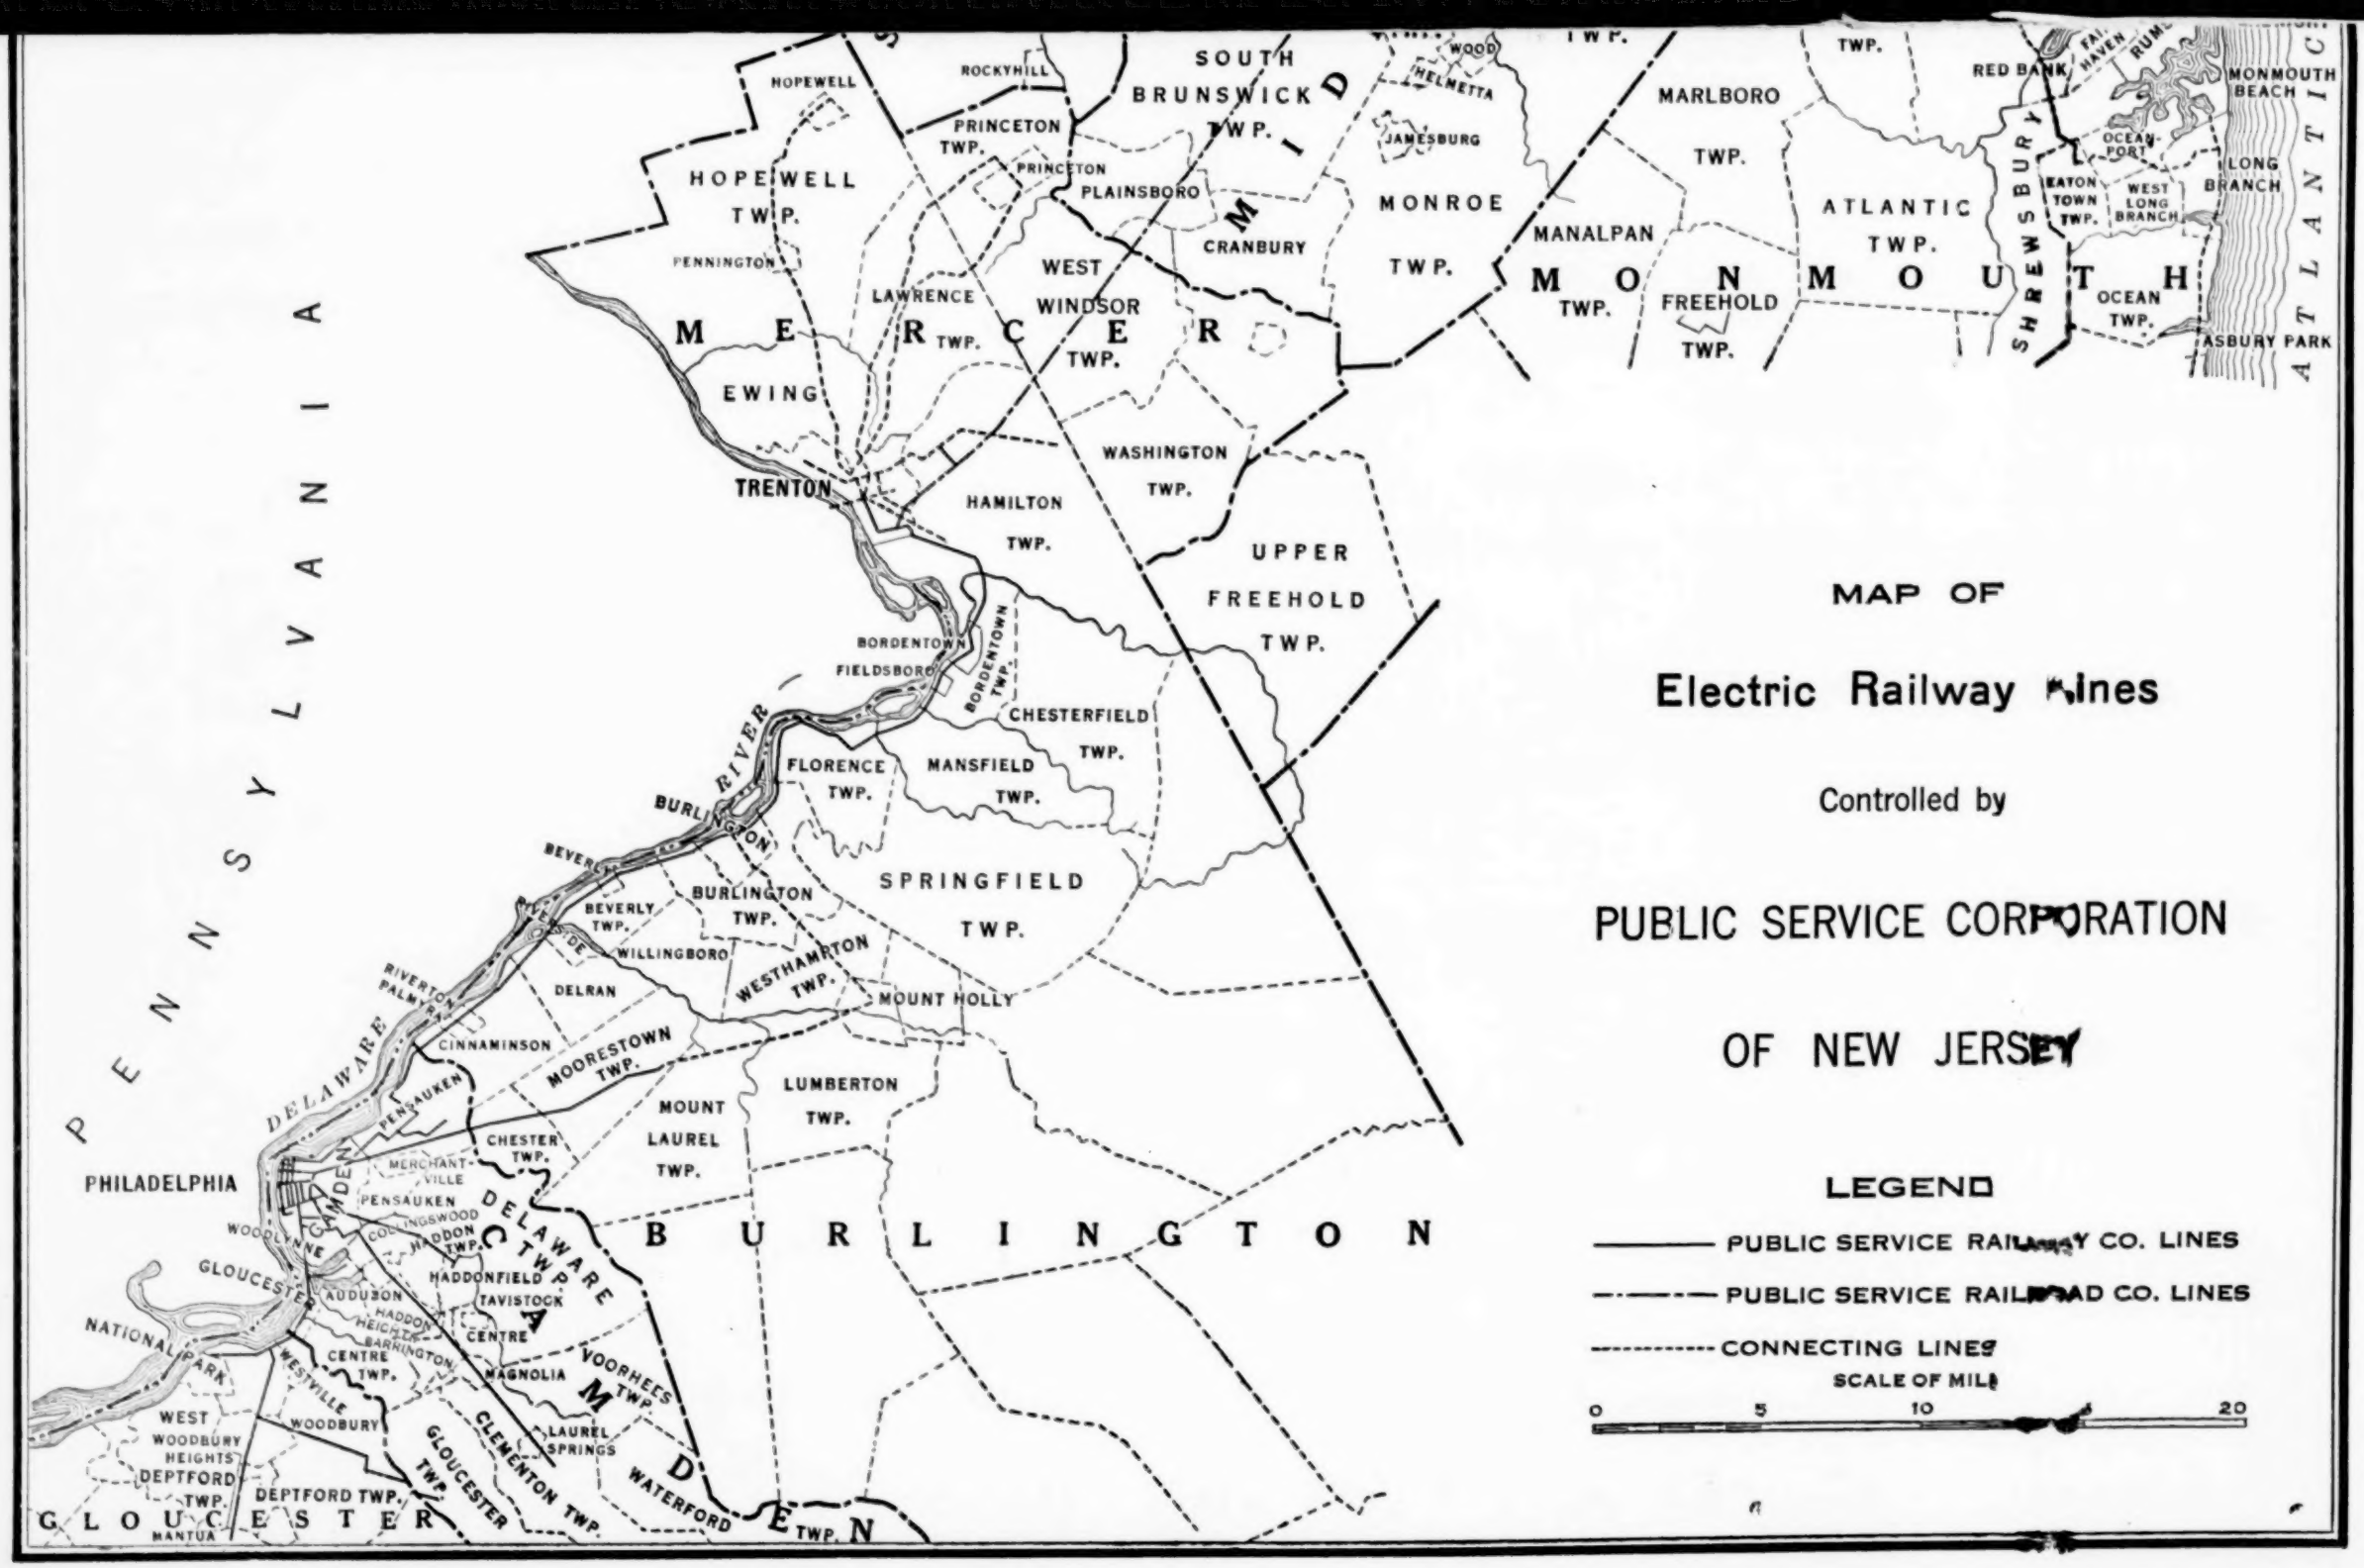
New Lines.—On Mar. 19 1913 an agreement was signed between the city and this company (V. 94, p. 1507, 1565; V. 96, p. 62, 359, 1701) and the B.R.T. Co. (now B. M. T.), providing for the establishment of comprehensive dual systems of rapid transit serving all boroughs.

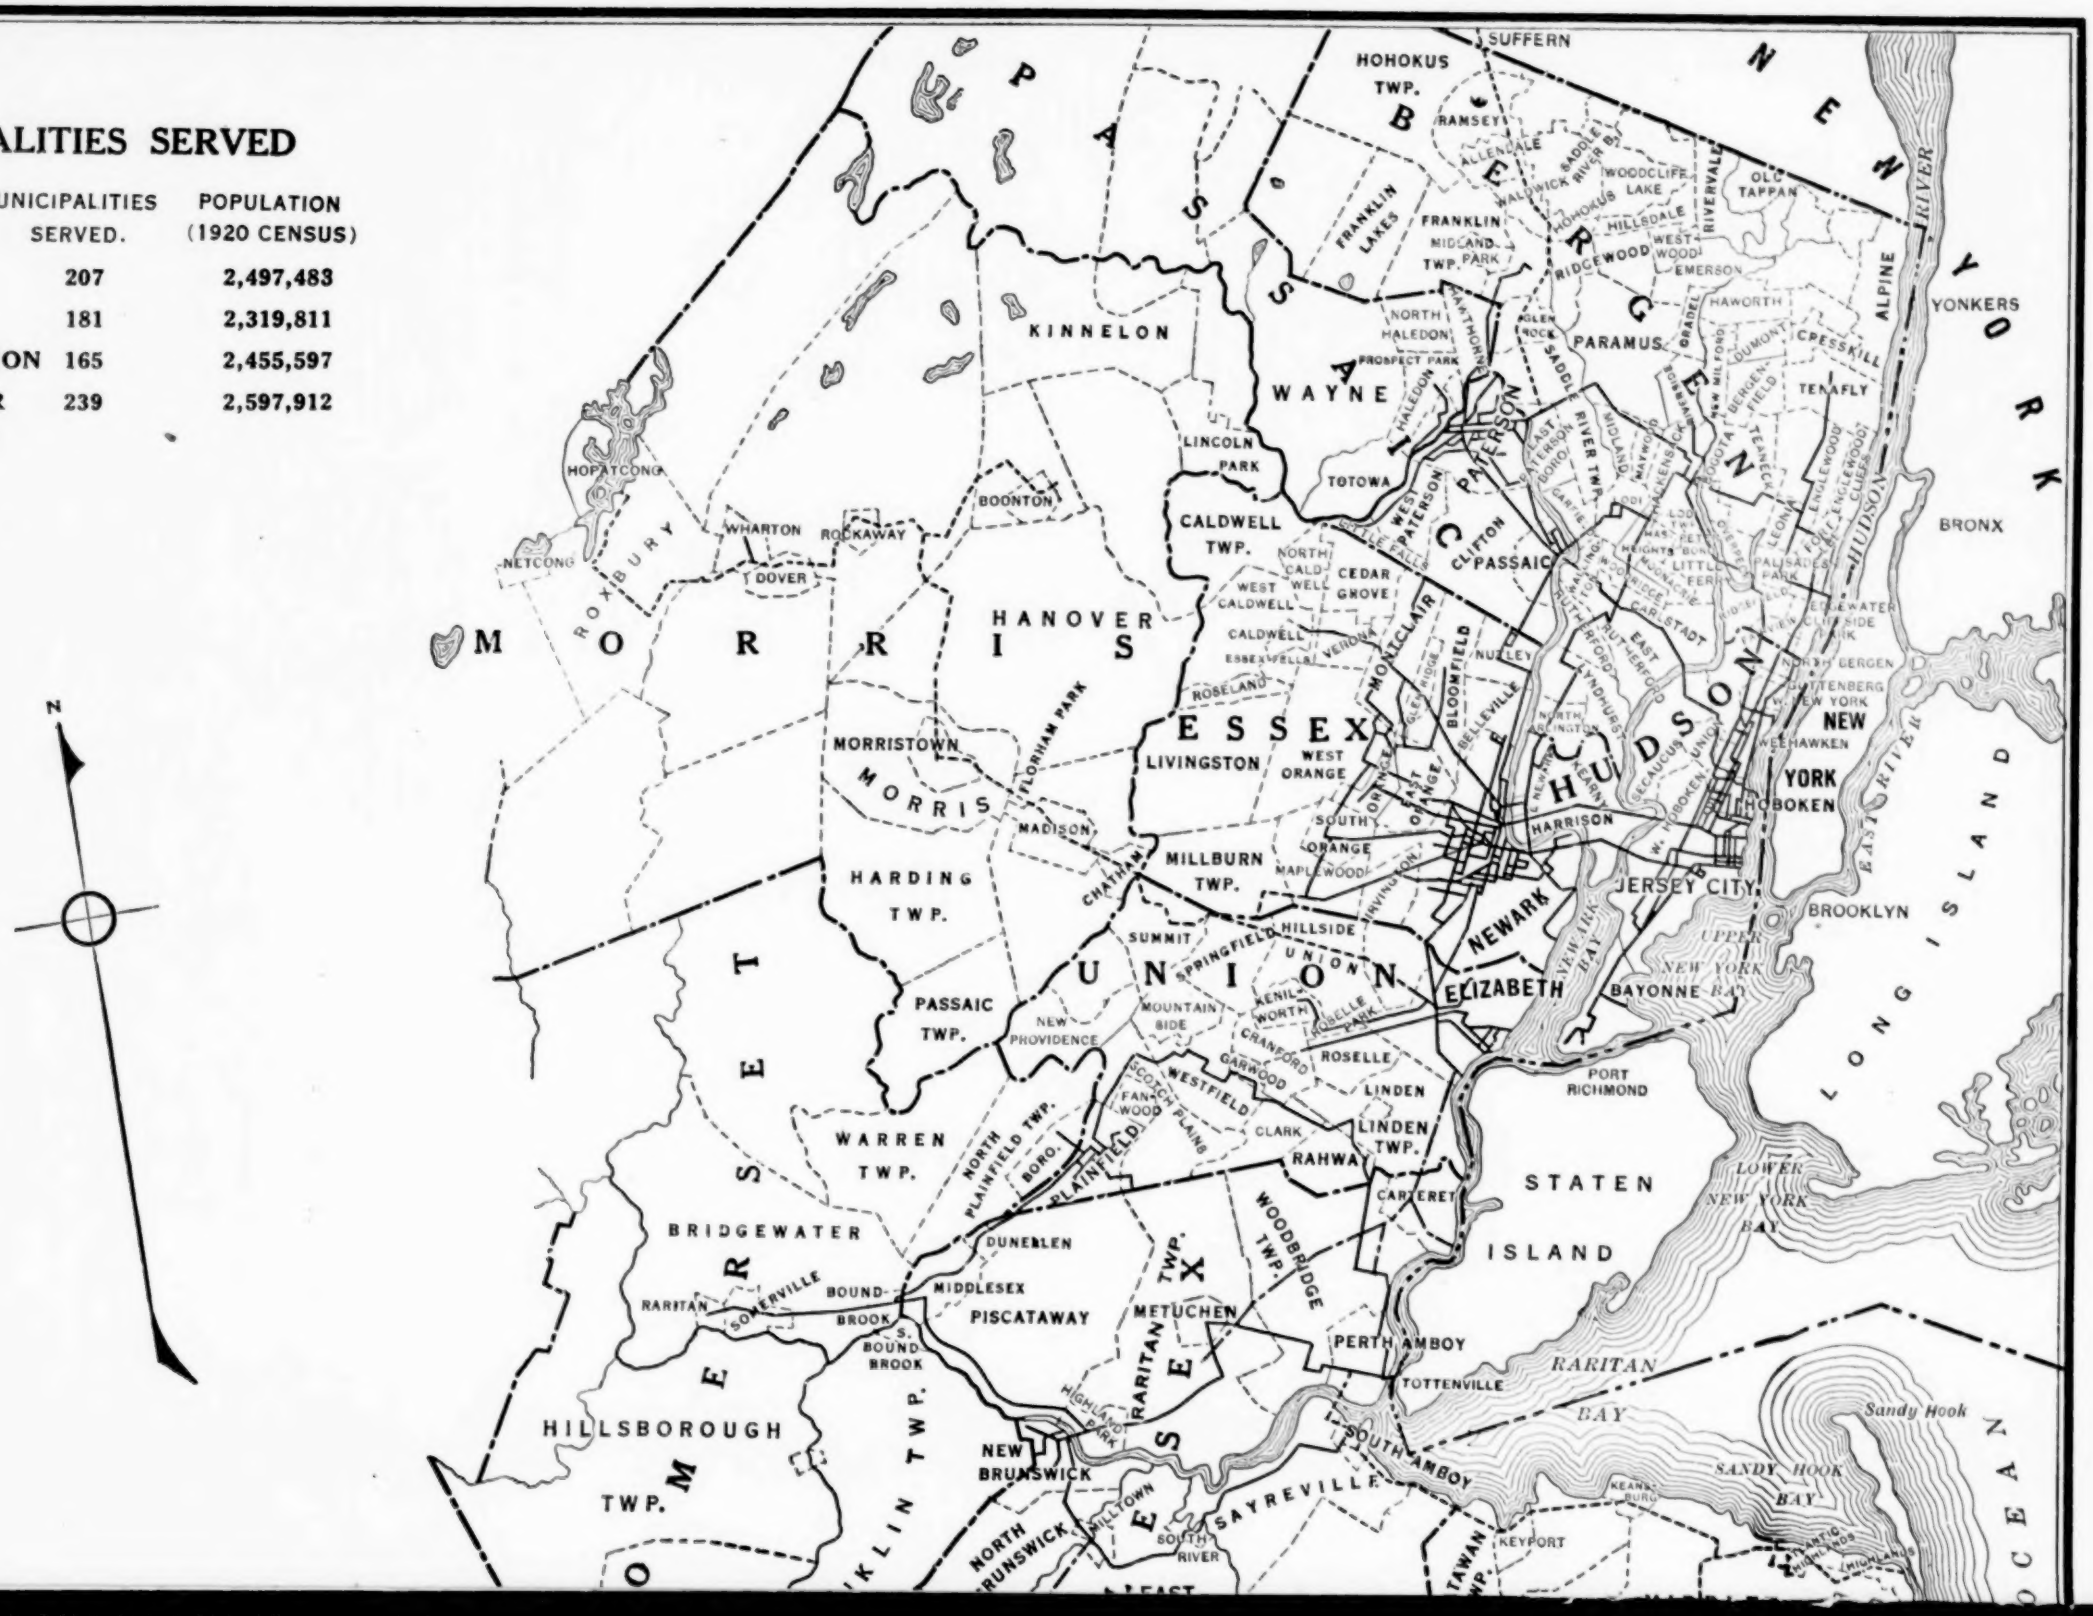
The official statement to the N. Y. Stock Exchange, dated June 30 1913, was published in "Chronicle" of Aug. 16 1913, pages 450 to 455, giving full particulars as to new contracts, bonds, &c. See also V. 97, p. 744, 1024.



Subway Leases, New and Old, to Run 49 Years—Re-Capture.

The lease by the city to the co. of the new subways is for 49 years from Jan. 1 1917, but if their completion should be delayed through no fault of the co., the beginning of the term will be correspondingly postponed (date now set Jan. 1 1919); subject, however, to city's right of recapture after 10 years.

The leases of the original subways as modified expire contemporaneously with the lease of the new subways, but are not subject to termination by notice except as portions thereof may be taken over in substitution for the 7th Ave. branch or the Lexington Ave. branch of the new subways in order to complete a direct longitudinal line, either upon the East Side or upon the West Side of the city. As to the old contracts, Nos. 1 and 2, see "Railway & Industrial" Supplement of Feb. 1913 and V. 96, p. 1701.



The authorizations and licenses for the elevated railway extensions and additional tracks are for 85 years from the beginning of operation, and are respectively subject to the right of the city to purchase and take the property at any time after 10 years upon payment therefor.

Under the pooling agreement with the city which became effective Jan. 1 1919, all the receipts of the old and new lines of Interborough system, with the exception of the old elevated lines, will be placed in a common pool, from

which will be deducted taxes, maintenance, oper. expenses, depreciation, the co.'s preferential and interest and sinking fund payments upon the city's and the co.'s investments in the new lines. After these charges are paid the amount of revenue remaining will be divided equally between the city and the company. V. 107, p. 501, 401.

Interest on the securities issued to construct and equip the new lines was a charge to construction until, and to the extent of, the completion and commencement of operation of the new lines. Under its contracts with the city the co. was reported in Jan. 1919 to be entitled to take, on basis of convertible note issue of 1918, out of the revenues of the I. R. T. system, an annual sum which, with $500,000 other corporate income, will provide $17,620,072, as compared with $13,101,255 required for interest and sinking fund on all bonds and notes outstanding in the hands of the public; but in Jan. 1919 not over $9,700,000 of the sum last named was expected to be a charge against the earnings of the year 1919, owing to the delay in putting the new lines in operation. See below and V. 108, p. 171, 268; V. 107, p. 1100.

The amounts payable to the co. out of the revenues of its subways (compound int. being allowable on any deficiency in any fiscal year) are to be paid before the city becomes entitled to the int. on its investment under its 1913 subway contract with the co. The amounts payable to the co. out of the revenues of its elevated lines (compound int. being allowable on any deficiency in any fiscal year) are to be paid before the city shares any profit from the operation of the elevated lines.

When the profits from the operation of the *subway system* exceed the amount of the co.'s annual prior claim, and after all accumulated deductions (with int. thereon) shall have been made up to the co., the profits then remaining are to go to the city until the percentage of the city's return upon its investment shall equal the percentage of the return received by the co.; and thereafter excess profits will be divided equally between the city and the co. The profits from the *elevated system* and connections, after all the co.'s accumulations shall have been made up, are to be divided equally between the city and the co.

Readjustment Plan, Dated May 1 1922.

The plan of readjustment for the Manhattan Elevated and Interborough properties, outlined below, was accepted by the security holders concerned. (V. 115, p. 1730.) The main purpose of the plan was to provide for the capital requirements and arrears of the Interborough system, estimated at about $30,000,000, and to readjust the Manhattan dividend rental. Under the plan the Interborough Consolidated Corp., which is the successor to the Interborough-Metropolitan Co. as the holding co. controlling the Interborough Rapid Transit Co., will disappear with its $45,740,500 of pref. stock and its 932,626 no par shares of com. stock and its $63,808,000 of coll. trust 4½% bonds. In place of these securities the $35,000,000 of Interboro. Rapid Transit Co. stock will remain. V. 114, p. 2011; V. 115, p. 2159.

Summary of the Main Features of the Plan.

Manhattan Rental.—The Manhattan rental is to be payable out of the earnings of the combined systems after the payment of interest charges and is to be at the following rates:

For the fiscal year beginning July 1 1922, 3%.
For the fiscal year beginning July 1 1923, 4%.
For the fiscal year beginning July 1 1924, and subsequent years, 5%.

These preferential payments are to be cumulative and must be made to the Manhattan stockholders if the earnings exist.

In case 4% divs. should be paid in any year upon Interborough stock, any further distribution of divs. for that year is to be divided upon a prescribed basis between the Interborough stock and the Manhattan stock until the total divs. upon the Manhattan stock for that year have reached 7%.

Interborough Dividends Limited to 7%.—No divs. shall be paid upon the capital stock of the Interborough Co. (*a*) before July 1 1926, nor (*b*) out of income accruing prior to that date, nor (*c*) unless and until the foregoing Manhattan cumulative div. rental and all taxes upon the Manhattan property and all div. rentals accruing to and incl. July 1 1922 shall have been paid in full. The divs. to be paid upon the stock of the Interborough Co. in any year prior to July 1 1950 shall not exceed 7%.

After July 1 1950 no div. shall be paid in excess of 7% per annum, and no other distribution of corporate assets shall be made if such payments reduce the aggregate net value of the assets of the Interborough Co. below $35,000,000 unless such div. or distribution shall have received the consent of the Manhattan directors.

Existing Current Obligations and Arrears to be Paid.—Provision is to be made for the payment of all existing current obligations, including the arrears of rentals at the present rate and taxes under the Manhattan lease down to July 1 1922, the beginning of the next fiscal year.

Maintenance and Improvement of Manhattan Property.—Provision is to be made to insure the application of a proper amount to the maintenance and improvement of the Manhattan property, including the installation of turnstiles at stations and pneumatic control doors for cars.

Sinking Fund of Interborough Bonds Waived Five Years.—The interest payments on the Interborough 5% first mtge. bonds and on the secured notes is to continue uninterrupted, but in order to increase the amounts available for the improvement of the Interborough properties and other capital purposes, the sinking fund in respect of the Interborough 5% mortgage bonds is to be waived for a five-year period.

Notes.—90% of the Interborough secured notes due Sept. 1 1922 were renewed for 10 years, the remaining 10% being paid in cash.

A new issue of $15,000,000 6% notes was auth., of which $10,500,000 were issued to provide for capital expenditures.

To carry out provisions of the plan a voting trust was established. Voting trustees are: Frank Hedley, Guy E. Tripp and Frank L. Polk. The voting trust is to continue in force until Oct. 1 1927.

For further details of plan, compare V. 114, p. 2011, 2240.

VALUATION.—V. 114, p. 1765.

Payment of All Accruals on Non-Assenting Manhattan Ry. Stock.—Beginning Jan. 2 1926, the company paid a regular guaranteed rental of $1 75 per share to holders of non-assenting stock of the Manhattan Ry. For more particulars see V. 121, p. 1461. See also V. 121, p. 3003. One of the stockholders of Manhattan Ry. complained that the Interborough R. T. Co. had paid the back dividends only to those Manhattan Ry. shareholders whom the I. R. T. Co. was required to pay under court order. His request to bar trading in the stock of I. R. T. Co. on this account was refused in Nov. 1925 by the New York Stock Exchange. See V. 121, p. 2402. See also under "Manhattan (Elevated) Ry."

Fare Increase.—On May 14 the company renewed its agitation for a 7-cent fare, see V. 120, p. 2550, 2815. Advertising contract with Street Rys. Advertising Co. of New Jersey for 18 years. V. 121, p. 329. Wage agreement renewed for one year till July 1 1926. V. 121, p. 457.

Rapid Transit Report.—See V. 121, p. 2522, for a summary of the Transit Commission reports of companies operating in the City of New York for fiscal year ended June 30 1925.

1925 *Subway Awards.*—See V. 122, p. 249, under "Rapid Transit in New York City."

On April 10 1926 Court awarded co. and Manhattan RR. $975,438 for removal of 42d St. spur. See for details V. 122, p. 2190.

The bonds became, Nov. 1 1913, a first lien on all leasehold and other rights of the company in (*a*) the existing subways and elevated lines (including power houses, sub-stations, equipment, real estate, &c., owned directly by the Interborough Co. subject to the city's rights under the lease) and (*b*) in the new subway and elevated line extensions and in the authorized additional tracks on the present elevated lines. Cumulative sinking fund of not less than 1% yearly of amount out began July 1918, and is to retire entire issue. Sinking fund waived for 5 years (see readjustment plan above).

* "Accruals under contract No. 3 and related certificates."

a From the commencement of operations under Contract No. 3 and the related certificates, respectively, it has been the practice to include in all reports of operating expenses 14% of the gross operating revenue upon the Manhattan Division and 17% on the Subway Division to cover maintenance and depreciation. These are the percentages fixed for the first year of operation in each cash. Negotiations have been pending between the company and the Commission ever since the end of the first year to determine what, if any, changes in these percentages should be made for subsequent years. Prior to July 1 1923 the amount expended in excess of 14% upon the Manhattan Division was approximately offset by the amount under 17% expended upon the Subway Division. But during the current year there have been expenditures upon both divisions considerably in excess of the tentative percentages provided for the first year. The net expenditures for maintenance in excess of the amounts therefor included in "operating expenses" are shown hereinabove as "maintenance expenditures in excess of contractual provisions."

b Under the plan of readjustment, payment of the sinking fund is deferred until July 1 1926 on condition that, prior to that date, an amount equal to the deferred sinking fund be expended on additions or improvements to the property.

c Reserve to cover amount of additional rental which may become payable to owners of Manhattan Ry. Co.'s stock not assenting to the plan of readjustment for the period from July 1 1924 to June 30 1925 ... $65,310

MANHATTAN RY. (ELEVATED).

ORGANIZATION.—*Lease.*—The Interborough Rapid Transit Co. leases the road for 999 years from 1875. Divs. were originally guaranteed at rate of 7% per ann., but under terms of readjustment plan rental was reduced as follows: For fiscal year beginning July 1 1922, 3%; for fiscal year beginning July 1 1923, 4%; for fiscal year beginning July 1 1924 and subsequent years, 5%. These preferential divs. are payable out of the earnings of the combined Interborough R. T. and Manhattan Ry. systems after the payment of interest charges, and are to be cumulative. In case 4% divs. should be paid in any year upon I. R. T. stock, any further distribution for that year is to be divided upon a prescribed basis between the Interborough stock and the Manhattan stock until the total divs. upon the Manhattan stock for that year have reached 7%. See Interborough Rapid Transit Co. above.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns elevated railroads in the boroughs of Manhattan and the Bronx, N. Y. City, main line and branches, 37.67 miles, with 92.52 miles of 2d, 3d, 4th and 5th track, sidings, &c.; total track, 130.19 miles; 3d rail electric. The 2d, 3d and 9th Ave. lines, under agreement with the city made in March 1913, have been largely 3-tracked, the Interborough Rapid Transit Co. supplying the funds.

Decision.—Supreme Court Justice Ford, in a decision handed down Feb. 18 1924 in a Manhattan stockholder's suit to recover from the Interborough company back dividends on the Manhattan guaranteed stock, held that the Interborough company must pay the 7% dividend rental to stockholders who declined to participate in the Interborough-Manhattan readjustment plan. V. 118, p. 794. A similar decision was handed down by Justice Mullan in May 1924. V. 118, p. 2437. Affirmed by Appellate Division of N. Y. Supreme Court April 3 1925. Affirmed by Court of Appeals. It is estimated that only 5% of the stockholders of the Manhattan Co. are affected.

On April 10 1926 court awards company and the Interborough Rapid Transit Co. $975,438 for removal of 42d Street spur. For details see V. 122, p. 2191.

Payment of All Accruals on Non-Assenting Manhattan Ry. Stock Begins Oct. 1 1925. See under "Interborough Rapid Transit Co." on a previous page (V. 121, p. 1461). V. 120, p. 1747; V. 121, p. 329, 586. See also under "Dividends."

BROOKLYN CITY RR. CO.

ORGANIZATION.—Incorp. in New York in 1853. Was leased on Feb. 14 1893 to the Brooklyn Heights RR. Co. for 999 years, the lease guaranteeing all fixed charges, organization expenses, taxes and 10% dividend [Oct. 1919 and subsequent dividends not paid—see B. R. T. below] on $12,000,000 of stock (par $10). The lease was nominally to the Brooklyn Heights RR. Co., but the Brooklyn Rapid Transit Co. (now B.-M.-T.) owned entire capital stock of the Brooklyn Heights Co. The Brooklyn Heights RR. Co. was placed in the hands of a receiver July 14 1919, and in accordance with the decree of U. S. District Court, dated Oct. 16 1919, disaffirmed the lease and returned the property to the Brooklyn City RR. Co. Oct. 19 1919. In Oct. 1923 we were informed that the Brooklyn Heights Co. was being liquidated. No further information.

FIELD OF OPERATIONS.—Owns 209 miles of track and operates approximately 219 miles. Has approximately 991 motor passenger cars and 131 motor service cars. Power is purchased from B. M. T.

Guaranty Fund.—Under the terms of the lease it was provided that a fund of $4,000,000 should be deposited with certain trustees by the Brooklyn Heights RR. Co. as a guarantee of the performance of the terms of the lease. It was further provided that in the event of the termination of the lease by reason of any breach, default or omission, the "said guaranty fund of $4,000,000 . . . shall at once become the sole and absolute property of the lessor." This guaranty fund consisted of the following: $2,000,000 Brooklyn Queens County & Suburban first mtge. 5% bonds; $1,627,000 Brooklyn City RR. first 5s; $125,000 Brooklyn City RR. refunding 4s; $25,000 B. R. T. first 5s; $250,000 B. R. T. first refunding 4s.

By agreement dated Nov. 19 1923, the Guaranty Fund controversy was adjusted as follows: $275,000 Brooklyn City RR. ref. 4s held by the B. M. T. were substituted for the $250,000 B. R. T. ref. 4s and $25,000 B. R. T. 1st 5s. All the Brooklyn City RR. bonds, consisting of $1,627,000 5s and $400,000 4s, were delivered free and clear to the Brooklyn City RR. Co. $2,000,000 Brooklyn Queens County & Suburban 1st mtge. 5s were delivered to the B. M. T. under a stipulation that the Brooklyn City RR. should receive a $2,000,000 offset against any recovery on the so-called $10,000,000 construction suit. It was further provided that if there should be no recovery on the construction suit, then Brooklyn Queens County & Suburban bonds should be returned to the Brooklyn City RR. Co. or the pro rata amount of the recovery, should it be less than $2,000,000.

The company has no power houses of its own but has a contract with the receiver for the B. R. T. by which it is supplied with power. The company makes weekly payments of the amounts which is estimated will be found due for power. The amounts are not fixed and vary from time to time.

The company has a claim against the B. R. T. for the demolition of the Brooklyn City power house.

Suit.—The receiver for the B. R. T. brought suit against the company to recover $10,000,000, alleged to have been expended by the Brooklyn Heights Co. under its lease. The company in its answer denies any liability. V. 113, p. 2612.

Objections to Valuation of Transit Commission.—V. 114, p. 1285.

Supreme Court from the order granted by Judge Mayer permitting the Rapid Transit Corp. to intervene, but on June 2 1924 the appeal was dismissed by the U. S. Supreme Court, which ruled that it was without jurisdiction. V. 118, p. 2823. Compare V. 118, p. 1268. See also V. 119, p. 2409 and V. 122, p. 2038.

COMPANIES CONTROLLED BY BROOKLYN-MANHATTAN TRANSIT CORP.

(1) NEW YORK RAPID TRANSIT CORPORATION.

ORGANIZATION.—Organized in New York on June 9 1923 as a consolidation of the New York Consolidated RR. and the New York Municipal Ry. Corp., succeeding those companies as per B. R. T. reorganization plan, for details of which see "Electric Railway" Supplement of April 28 1923. For history of N. Y. Consol. RR. and the N. Y. Municipal Ry. Corp. up to time of reorganization also see "Electric Railway" Supplement of April 28 1923. The co. as now constituted owns and operates the rapid transit lines of the B. R. T. system (now B.-M. T. Corp. For digest of readjustment plan and particulars regarding exchange of securities under plan see V. 116, p. 2130.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns 171.920 miles of track; leased (incl. trackage rights), 124.089 miles; total, 296.737 miles. Leases for 999 years from 1915 the Nassau Electric RR.'s terminal at Coney Island. See "Electric Railway" Supplement of April 28 1923 for terms of lease.

Division of Earnings with City.—As the Corp. now holds all the rights originally acquired by the New York Municipal Ry. Corp. in the latter's contracts with the city, all the earnings accrue to it. The division of earnings is on the following basis:

1. To the company, $3,500,000, as representing the net earnings of the previously existing railroads which went to form part of the new rapid transit system. Out of this reservation the company pays interest charges on capital investments prior to Mar. 19 1913 in the then existing railroads.

2. To the company, 6% on its new investment in construction and equipment prior to the beginning of permanent operation and thereafter interest and 1% sinking fund.

3. To the city, interest and 1% sinking fund on its investment in cost of construction.

4. Any surplus remaining, after making provision for a moderate contingent reserve fund, is to be divided equally between the company and the city. The company's preferential payments are to be cumulative.

Increase Stock.—In Feb. 1926 corp. applied to Transit Commission to increase its capital stock from 189,000 to 284,000 no par shares and to issue the increased number of shares in exchange for its outstanding ref. mtge. 5% s. f. gold bonds at the rate of 4 shares of stock for each $100 of bonds. For further particulars, see V. 122, p. 1026.

Suit Against City.—See under B.-M. T. above.

Upon completion of readjustment and reorganization the co. will be capitalized approximately as follows:

x $93,352,000 pledged under B.-M. T. Corp. Rapid Transit security 6% sinking fund bonds Series "A" (see that co. above).

Bonds.—The 1st & ref. mtge. bonds will constitute a lien (ahead of the ref. mtge. and subject only to the existing underlying elevated railroad bonds on certain of the properties) on the rights existing under Contract No. 4 and allied certificates and on all the other properties of the N. Y. Rapid Transit Corp. The bonds are to be issued only for the purpose of providing (after the exhaustion of the moneys—$5,000,000 improvement fund for future improvements already deposited—provided in the reorganization for such purpose) for the cost of additional equipment and additions and betterments for the rapid transit lines or power house properties, provided after July 1 1923 under Contract No. 4 and the allied certificates, and also for the purpose of refunding any bonds previously issued and outstanding under this mortgage and any of the existing underlying elevated railroad bonds. None of these bonds will be issued in reorganization. Pending the consummation of the proposed inclusion of the power plant properties under Contract No. 4 and (or) the allied certificates and the transfer of those properties accordingly, the reorganization committee may authorize the creation of a power plant 1st mtge. of substantially the same character as the N. Y. Rapid Transit Corp. 1st & ref. mtge. Such mortgage may be created and the bonds thereunder issued either by the new co. itself, if the title to the power plant is permitted to remain therein, or by a subsidiary co., if title to the power plants be vested in a subsidiary. None of these bonds will be issued in reorganization.

Bonds of the Brooklyn Union and Kings County Elevated RR. are listed on New York Stock Exchange. In July 1925 Wm. Carnegie Ewen sold at 90¼ and int., to yield 5¼%, a block of Brooklyn Union Elevated RR. 1st mtge. 5% gold bonds, due Feb. 1 1950. V. 121, p. 76. In July 1925 the New York Stock Exchange struck from its list the 5% 1st mtge. sink. fund bonds, series "A," due Jan. 1 1966, of the New York Municipal Ry. Corp. Receivership Terminated.—In July 1923 the receivership of the Nassau Electric RR. was terminated.

ORGANIZATION.—Chartered Mar. 13 1893 under the laws of New York. Opened in July 1895 and in April 1896 leased the Atlantic Avenue

Was formerly leased for 999 years from April 1 1900 to Brooklyn Heights Railroad, but, coincidently with a decision compelling the issuance of transfers from one leased line to another (V. 79, p. 102), the lease was terminated on June 30 1904.

FIELD OF OPERATIONS.—Embraces 143.219 miles of single track. Atlantic Avenue RR. (now part of Nassau Electric) owned the double-track steam road (since converted to electricity) from Jamaica to Flatbush Avenue Station in Brooklyn, 9½ miles (19 miles of track), which is leased for 99 years from June 1 1877 to Long Island RR. Co., affording that company entrance into the city of Brooklyn—rental, formerly a percentage of receipts, was changed in 1895 to $60,000 yearly. V. 61, p. 828. Litigation has arisen with Long Island RR. regarding the use of Atlantic Avenue. See V. 74, p. 1139. In Oct. 1910 N. Y. Court of Appeals decided that the city had the right to tear up rails, but city has taken no action looking to the exercise of the right.

SECOND AVENUE RR.

Receivership.—In Sept. 1908 Justice Bischoff in Supreme Court appointed George W. Linch separate receiver in suit by Guaranty Trust Co. to foreclose consolidated mortgage. At midnight on Nov. 12 1908 receiver took possession of the property. Charles E. Chalmers is now receiver. Div on stock due June 1908 was defaulted. Default of int. on bonds occurred as follows: 1st (gen.) mtge., Nov. 1 1908 (subsequently retired; V. 91, p. 1255); first consols, Aug. 1 1908; debentures, July 1 1908. A committee was formed to protect the interests of the first consol. 5% bonds. V. 87, p. 347, 1238. On Oct. 1 1910 Justice Amend in Supreme Court authorized receiver to issue $2,500,000 receiver's certificates to be used to retire $1,280,000 gen. consol. 5s and $500,000 receiver's ctfs. due Oct. 1 1910, and for franchise taxes, impts. and equip. In Oct. 1913 $3,200,000 1-year 6% receiver's ctfs. were authorized to retire $3,140,000 falling due Oct. 1 1913, which have been extended from year to year. V. 105, p. 1310; V. 107, p. 1386; V. 119, p. 457. The interest due April 1 1918 on these ctfs. was deferred until May 1 1918 (V. 106, p. 1578). Oct. 1918 interest was paid when due. V. 107, p. 1386. The Oct. 1 1919 int. was not paid when due. V. 109, p. 1462.

Anticipating the default in the payment of the Oct. 1 1919 int. on the $3,140,000 6% receiver's certificates, the following committee was formed in July 1919 to protect the interests of the holders (V. 109, p. 1462, 2357):

Foreclosure Suit.—On Dec. 16 1919 a summons and complaint in a suit for the foreclosure of receiver's certificates were filed on behalf of the protective committee (see above). For details see V. 109, p. 2357. The N. Y. Supreme Court ordered the sale of the property under this suit on Sept. 1 1921, but sale has been postponed. V. 113, p. 732, 1054.

Reorganization.—In July 1924 it was reported that plans for the reorganization of the co. had virtually been completed and that the plan would probably be effected in the late summer or early fall. V. 119, p. 457. No further information however up to Apr. 1, 1925.

Sale of Real Estate Under Foreclosure.—As a result of foreclosure proceedings against the co., the southwest corner of 2d Ave. and 127th St., a vacant plot, was sold at auction in 1921. Compare V. 112, p. 163.

Receivership of Steinway Railway

On April 27 1922 Justice Callaghan in the Queens County Supreme Court appointed S. W. Huff and R. C. Lee receivers for Steinway Ry. upon application of Guaranty Trust Co., trustee under the first mortgage of the Steinway Ry., interest on which was defaulted. The order provided that the receiver take over only the property which originally belonged to the Steinway Co. (V. 114, p. 1891.) The receivers put into effect a separate 5-cent fare on that part of the system against the orders of the Transit Commission, but the action of the receivers was sustained by the Court. V. 114, p. 2116, 2360.

In view of the default in the payment of the int. due Jan. 1 1922 on the Steinway Ry. 1st M. 6s and the then impending default of prin. & int. due July 1 1922, two committees were formed to protect interests of holders of these bonds. One committee was headed by H. B. Thorne (V. 113, p. 2819) and the other by Geo. W. Davison (V. 114, p. 80). The first named committee arranged to pay the Jan. 1 1922 coupon. V. 114, p. 80. Later the two committees were consolidated. The committee resulting from the consolidation is composed of:

PUBLIC SERVICE ELECTRIC & GAS COMPANY.

All the com. stock is owned by the Public Service Corp. of N. J.

ORGANIZATION.—Formed in 1924 as a consolidation of the Public Service Electric Co., Public Service Gas Co. and United Electric Co. of N. J. as per plan outlined in V. 118, p. 1268, 2705. It is planned eventually to merge into the consolidated co. all stock-owned electric and gas companies and to vest in it the ownership of leasehold estates which comprise the balance of the electric and gas systems. It is further planned to offer to the stockholders of certain gas and electric cos. leased the opportunity to exchange their stocks for other securities, so that, eventually, these cos. also may be consolidated with Public Service Elec. & Gas Co. These consolidations are not an essential part of the plan, however, as the leases in question extend in practically all cases for terms upwards of 900 years. In accordance with these plans, however, 7 companies previously operated under lease were merged into the co. on Dec. 3 1924. Notes due June 3 1925 and bearing interest at 6% were given by Public Service Electric & Gas Co. in exchange for the stock of the merging companies as follows:

The entire capital stocks of these companies, with the exception of 8 shares of the stock of Princeton Light, Heat & Power Co., were owned by Public Service Corp. of N. J. V. 119, p. 3011. For histories as separate organizations of Public Service Elec. Co., Public Service Gas Co., United Electric Co. of N. J., and above-mentioned leased cos. merged, see "Electric Railway" Supplement of April 26 1924.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Co. serves with electricity and gas a population in New Jersey estimated at over 2,600,000, or over 80% of the population of the State. The territory served includes the larger cities and more populous sections of the State. The territory extends from the Hudson River opposite New York City, southwest across the State to the Delaware River opposite Philadelphia, and includes Newark, Jersey City, Paterson, Trenton, Camden, Elizabeth, Bayonne, Hoboken, Passaic, the Oranges, Perth Amboy, Union City and New Brunswick.

The company's electric system as of Dec. 31 1924 included 14 generating stations with an aggregate rated capacity of over 550,000 h.p., 1,061 miles of transmission lines and 27,804 miles of distribution wire, serving over 525,500 electric customers. Its gas system included 10 generating plants with an aggregate capacity of 81,950,000 cubic feet daily and 3,646 miles of mains, serving over 643,050 gas customers.

Franchises.—With minor exceptions, the franchises under which the company operates are, in the opinion of counsel for the company, perpetual and contain no burdensome restrictions.

Valuation.—The property of the co. and its leased cos. (not incl. any of that leased from the Public Service Electric Power Co. or the electrical property leased from Public Service Ry.) was valued by Day & Zimmermann, Inc., engineers, as of Jan. 1 1924, at over $245,000,000. V. 119, p. 589.

In June 1925 the New Jersey P. U. Commission authorized the company to issue $2,500,000 first and ref. mtge. gold bonds, due 1965, at 93½ and int., and 750,000 additional shares of common stock, no par value, at $10 per share. The application for the issuance of 50,000 shares of 6% cum. pref. stock and 1,000,000 additional shares of common stock was held up for further investigation. V. 120, p. 3316. In Oct. 1925 the Commission granted the issuance of 1,000,000 common shares at $10 per share. V. 121, p. 2039.

Court Decision re Privately Owned Railroad Cars.—In Dec. 1925 the U. S. District Court in Philadelphia denied the I.-S. C. Commission the right of curtailing the use of privately owned coal cars in time of coal shortage. V. 121, p. 2753.

Additional stock issue of 2,500,000 no par common shares, to be sold at $10, and 150,000 6% cum. pref. shares, to be sold at $100 par, planned in April 1926. See V. 122, p. 2330.

Gas Sales, &c., 1925.—See V. 122, p. 1312.

J., and vicinity. The New Jersey Water & Light Co., also sold its water distributing system in the city of Deal, N. J., to Tintern Manor Water Co., but retained all its buildings, real estate and equipment.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Co. owns and operates electric light and power properties serving Asbury Park, Bradley Beach, Belmar, Avon, Deal, Allenhurst and adjoining communities. Supplies power to and operates through subsidiaries, an electric railway line of about 16 miles. Stock.—Subject to the rights of the 7% cum. partic. pref. stock and 7% pref. Ser. A stock, the Class A common stock is entitled:

(*a*) To priority as to divs. to the extent of $1 60 per share per annum over the Class B common stock, and such divs. at the rate of $1 60 per share are cumulative to the extent earned in any calendar year.

(*b*) In each cal. year after all cum. divs. are set apart or paid on Class A common stock to share equally as a class with the Class B common stock considered as a class, regardless of the number of shares of either outstanding, after Class B com. stock as a class shall receive an amount equal to $1 60 per sh. on outstanding Class A com. stock or $300,000, whichever is greater.

(*c*) To priority in liquidation or dissolution over the Class B com. stock up to $30 per share plus divs. at the rate of $1 60 per share to the extent earned but unpaid on the Class A com. stock, and after distribution to the Class B com. stock of an amount equal to $30 per share on the Class A com. stock, excluding the divs., to receive as a class one-half of the remaining assets. In April 1925 120,000 shares Class A com. stock were *offered* by Howe, Snow & Bertles, Inc., A. L. Chambers & Co., Inc., A. E. Fitkin & Co., and Mark C. Steinberg & Co. at $21 per share. V. 120, p. 1747.

The participating feature of the 7% cumulative partic. pref. stock is non-cum. and is limited to 3% additional in any year. In all other respects the 7% partic. pref. and the 7% pref. stock, Series A, are identical and have preference as to assets to an amount of $100 per share. Both pref. stocks are red., whole or part, after 3 years from issue, on 30 days' notice, at $115 and divs. Stock so retired, cannot be re-issued. Pref. stock has no pre-emptive right to subscribe to any stock. Voting power only in event of two consecutive quarterly dividends in arrears, in which case pref. votes share for share with com. stock. In case of 8 quar. pref. divs. in default, pref. stock has full and exclusive voting power and elects board of directors. At no time may any com. div. be declared which would reduce co.'s surplus below an amount equal to a full year's 7% divs. on outstanding pref. stock. In June 1925 Howe, Snow & Bertles sold $2,500,000 7% cum. series A pref. stock at $96 per share and div., to yield 7.29. Each share carried a stock purchase warrant to purchase one share class B com. stock at $20 incl. July 15 1926; at $25, incl. July 15 1927; at $30, incl. July 15 1928.

In Feb. 1926 Howe, Snow & Bertles, Inc., and H. E. Fitkin & Co. offered at 95 and divs., to yield about 7.37%, $1,250,000 7% cum. series A pref. stock. V. 122, p. 883.

Bonds.—Are specifically secured by the deposit with the trustee of all the com. stocks of the subsidiary companies owned, which represents, in every case, not less than the voting control of such companies. The trust indenture provides for equal semi-annual payments for interest and *sinking fund* of $38,500 for each $1,000,000 bonds issued to the trustee, beginning Feb. 1 1926, and semi-ann. thereafter. The balance remaining after the payment of int. on outstanding bonds of this issue shall be used for the purpose of sink. fd. for the retirement of bonds. Series A are callable at any time on 30 days notice at 105 & int. up to and incl. Feb. 1 1936, reducing ¼ of 1% for each year elapsed from Jan. 31 1936 up to maturity. Bonds.—The *1st mortgage gold bonds* are direct obligations of Philadelphia Electric Power Co., unconditionally guaranteed (p. & i.) by endorsement by the Susquehanna Power Co., and are secured by their joint 1st mtge. on the dam, power plant and transmission lines of the Conowingo hydro-electric development, and on all property of both companies, incl. after-acquired property, and also the leases mentioned under "Field of Operations" above. During construction of the development, the proceeds of the bonds (and stocks, together with the stock subscription agreement of the Phila. Elec. Co.) are to be deposited with trustee, the funds to be withdrawn as the work progresses. In addition to the $38,000,000 5½% series due 1972 bonds, additional bonds (up to a total amount of all 1st mtge. bonds of $60,000,000) may be issued in series of such tenor as directors from time to time may determine, for 75% of permanent additions to be leased to Phila. Elec. Co. or Susquehanna El. May also be issued for refunding outstanding 1st mtge. bonds, par for par, not including, so long as any 5½% series due 1972 are outstanding, any bonds retired by the sinking fund provided for such series; also to provide money to be deposited with trustee for any of the foregoing purposes.

So long as any 5½% series due 1972 bonds are outstanding, no bonds of any other series may be issued unless they mature after Feb. 1 1972, or a semi-annual sinking fund sufficient to retire all such bonds at or before maturity is provided.

Modification of the provision of the mortgage may be made with the written consent of trustee and of holders of 85% of outstanding bonds, provided that no such change shall, without the holders' consent, alter the amount, time, place or medium of payment of principal or interest, redemption prices or dates of any outstanding bonds, or, so long as any bonds of 5½% series due 1972 are outstanding, reduce the amount of the sinking fund payments established in respect of any series.

A *sinking fund* is to retire by maturity all of the $38,000,000 bonds of the 5½% series due 1972. It commences Feb. 1 1930 and semi-annually thereafter retirements are to be made at a graduated rate increasing in substantial proportion to the interest charges on the retired bonds. Co. may tender bonds of this series at not exceeding the redemption price. Any cash payments are to be used to call by lot bonds of this series at the redemption price.

5½% Series due 1972 are red. on any interest date, whole or part, and for sinking fund on 30 days' notice, at 106 on or before Feb. 1 1941; at 105½ on or before Feb. 1 1951; at 105 on or before Feb. 1 1961; and at ½% less, commencing Aug. 1 1961, with a like additional reduction commencing Aug. 1 of each year thereafter, the bonds to be callable at par on and after Aug. 1 1970; in each case with interest. (a) PHILADELPHIA COMPANY.

Control.—In 1906 the United Railways Investment Co. (see above) acquired control. $24,575,000 common stock is now owned by the United Railways Investment Co. through the Pittsburgh Utilities Corp. (see above).

Offer by Standard Gas & Electric Co.—On April 6 1926 Standard Gas & Electric Co. offered to common stockholders Phila Co. 1 2-5 shares common stock Stand. Gas & El. Co. for each common share of Phila. Co. See V. 122, p. 2042. The exchange had to be made on or before May 31 1926.

ORGANIZATION.—Organized on May 24 1884, and was originally a natural gas company. Operates under special Act of the Legislature of Pennsylvania (conferring many valuable rights and privileges) granted to its predecessor, the Empire Co., in March 1871. *Franchises* of the company and its subsidiaries, with a few minor exceptions, are perpetual or for 999 years.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The Philadelphia Co. is a *holding company* which controls through stock ownership and leases public utility companies whose business may be classed under the following heads:

(1) *Natural Gas and Oil.*—Philadelphia Co., through stock ownership, controls a number of companies which supply nearly all the natural gas consumed in the city of Pittsburgh and the manufacturing towns lying along the Monongahela and Allegheny rivers. These companies control by lease 324,500 acres of gas and oil lands in West Virginia and Western Pennsylvania. In 1913 the Pittsburgh & West Virginia Gas Co. purchased the Monongahela Natural Gas Co. by the issue of $1,500,000 collateral trust notes. The principal natural gas companies controlled are: The Philadelphia Co. of West Va. | Pittsburgh & West Virginia Gas Co. Equitable Gas Company.

During the 12 months ending Dec. 31 1925 company sold 27,396,934,400 cu. ft. of gas and produced 97,263 bbls. of oil. On Dec. 31 1925 owned or controlled 1,749 gas wells and 3,826 miles of pipe. Also owned or controlled 173 oil wells.

(2) *Electric Light and Power.*—The Philadelphia Co. controls through stock ownership the Duquesne Light Co., which forms the electric light and power division. See statement on a subsequent page.

(3) *Street Railways.*—These comprise about 639 miles of track, all operated (as a matter of convenience and economy) by the Pittsburgh Railways Co. (except the Clairton Street Ry. Co., the Beaver Valley Traction Co. and the Pittsburgh & Beaver Street Ry. Co., which are operated separately).

The Phila. Co. in Jan. 1908 offered to guarantee 4% per ann. from Aug. 1 1907 on the $2,000,000 pref. stock of Consol. Gas Co. (entitled to 6% cum.), provided additional earnings be divided equally between the two classes of stock, but pref. not to receive more than 6% in any event. Holders of 75% of the $2,000,000 pref. stock having agreed to the proposition, the plan was adopted. V. 86, p. 54, 605.

Receivership Terminated.—**On Jan. 30 1924 Federal Judge Thompson at Pittsburgh signed a decree ordering a return of the properties of the company to the owners and lifting the receivership, which had been in effect since April 23 1918, at midnight Jan. 31 1924. V. 118, p. 552. Compare V. 118, p. 432; V. 117, p. 2139.**

Proposed Reorganization Plan.—A plan for the reorganization of the system embodied in an agreement proposed to be executed by the City of Pittsburgh, the Philadelphia Co. and the Pittsburgh Rys. Co., was presented to the Pittsburgh City Council July 25 1921. The plan contemplates the reorganization of the co. or the formation of a new co. to take over all its assets. The new co. would be limited to $62,500,000 in the issuance of securities in substitution of securities now outstanding amounting to $156,000,000. An annual return of 6% for 10 years is allowed on the new capitalization, which is the value of the railways properties as fixed by the P. S. Comm. (see below under "Valuation"). The city is given a voice in the control of the co. The proposed plan was printed and copies distributed by the Municipal Law Dept. of the City of Pittsburgh. For full details of plan see V. 113, p. 533, 731. Nineteen boards of trade, chiefly outlying districts entered into a joint protest against the proposed plan, but it is understood that no appeal will be made to the Superior Court. V. 114, p. 1288, V. 113, p. 1252. The above plan was approved by the Pittsburgh City Council, with certain amendments (see V. 113, p. 2721), and signed by the Mayor and A. W. Thompson, Pres. of the co., in Dec. 1921 (V. 113, p. 2721). On Feb. 14 1922 the Penna. P. S. Comm. approved the plan, V. 114, p. 855. No details as to the actual basis of the proposed financial readjustment are as yet available. V. 114, p. 1288. See also V. 115, p. 870, 2268, 2378, 2686; V. 116, p. 1412, 2516; V. 117, p. 1018, 1664, 1778; V. 118, p. 1666; V. 119, p. 1845.

***Default—Subsequent Payments.*—The company failed to pay the Jan. 1 1918 interest on the bonds of a number of subsidiaries and the directors of the Philadelphia Co., which was already a creditor of the Railways Co. for a large amount, refused to make it further loans. All the Jan. 1 1918 coupons, except on the United Traction 5s, were paid in March 1918. V. 106, p. 930, 1232. Coupons on the United Trac. 5s have since been paid from time to time. V. 113, p. 2722; V. 114, p. 80.**

Holders of $343,000 Pittsburgh & West End Passenger Ry. 1st Mtge. 5s due July 1 1922 were asked to convert their holdings into West End Traction gen. mtge. 5s, due Jan. 1 1938. For details see V. 115, p. 183. Up to Apr. 1 1925 $30,000 had been so converted, balance of $313,000 being paid int. at the rate of 5%. Compare V. 117, p. 1993.

The company as of Oct. 1 1925 was in default in the payment of the following rentals due subsidiary companies:

Due Nov. 1 1920 to Nov. 1 1923.	*Due April 1 1919 to Oct. 1 1923.*
Consolidated Traction Co.	Morningside Electric St. Ry

Claims for Rentals.—See V. 115, p. 760.

Valuation.—In March 1918 the Public Service Commission appointed a committee to ascertain the physical valuation of the co.'s properties and to recommend fare rates which will yield it a fair return on its investment. In Aug. 1918, under orders from the P. S. Comm., the receivers appointed a board of three (A. J. Kelly, Henry P. Haas and J. W. Cree) to make the valuation. V. 107, p. 697. According to the report to the P. S. Comm. in Aug. 1919, physical value of the co. in the opinion of engineers for the city is $48,000,000, and in the opinion of engineers for the co. either $60,889,804 or $70,120,804. V. 109, p. 776, 1367. **In March 1920 the P. S. Comm. fixed $62,500,000 as the value of the co.'s property, this being a compromise between the above mentioned valuations.** V. 110, p. 1290. The city, however, carried an appeal to the Superior Court of Penna., but this was withdrawn by agreement.

ORGANIZATION.—This was formerly the Southern Traction Co., but in accordance with the authority vested in it by the terms of its charter, the directors of the Southern Traction Co. on Dec. 30 1901 voted to change the name of the company to the Pittsburgh Rys. Co. The Philadelphia Co. had previously acquired all the stock, com. and pref., of the Southern Traction, in accordance with the terms in V. 73, p. 1112.

The Southern Traction Co. was chartered in 1900 to take over, extend and operate the West End Traction lines, which were purchased in Aug. 1900 for $4,500,000.

Leases the Pittsburgh & Castle Shannon RR. for 99 years, rental being $15,000 per annum. See V. 81, p. 778.

Excise Tax.—On Aug. 2 1915 Judge Dickinson in the U. S. Dist. Court held that the company's subsidiaries operated under lease were not carrying on business within the meaning of the excise tax law of 1909 and therefore were not liable to the tax. On Oct. 22 1917 the Market Street Elevated Pass. Ry., the Union Traction Co. and the Philadelphia Traction Co. appealed to the U. S. Dist. Court for restitution of $73,768 and interest collected from them in the years 1911 and 1912.

V. 107, p. 402. Compare V. 106, p. 2451. On Nov. 20 1918 a ruling was handed down by Common Pleas Court No. 3 (and in Feb. 1919 affirmed by the Pennsylvania Supreme Court) under which the Phila. Rapid Transit Co. is held responsible under the terms of the several leases for the payment to the Govt. of the income-excess profits taxes of the following leased line corporations: Philadelphia Trac. Co., Germantown Pass. Ry. Co., 13th & 15th Streets Pass. Ry. Co., Philadelphia City Pass. R. R. Co., Union Trac. Co., Ridge Ave. Pass. Ry. Co., Frankford & Southwark Philadelphia City Pass. Co. and Green & Coates Streets Phila. Pass. Ry. Co. V. 107, p. 2009; V. 108, p. 785.

Validity of Rentals Upheld.—In Dec. 1920 the Superior Court of Penna. handed down a decision denying the order of the P. S. Comm. requiring the underlying companies to file answers to averments made by the city and two local business men's associations with regard to rentals of the underlying companies. V. 111, p. 2521; V. 112, p. 163. The city, the P. S. Comm. and business associations appealed, and on July 1 1921 the Penna. Supreme Court reversed the decision of the Superior Court but only on a technicality. The Supreme Court held that the case should not have gone to the Superior Court; but maintained that the P. S. Comm. had no right to attack rental payments. For details see V. 113, p. 183, 293.

Split in Directorate.—See V. 111, p. 389; also V. 114, p. 522, 627, 739, 1181.

Fares.—Effective Sept. 14 1924 was auth. by the Pa. P. S. Comm. to increase cash fares to from 7c. to 8c., with 2 tokens for 15c., pending final determination of the Commission. V. 119, p. 1283, 1396. This temporary order was upheld in Dec. 1924 by the Pennsylvania Superior Court (V. 119, p. 2763), while on Jan. 12 1926 the P. S. Commission gave its final approval to it. V. 122, p. 1449.

Property Valuation.—On Apr. 30 1924 the Pa. Supreme Court refused to allow the City of Phila. to appeal against the decision of the Superior Court in upholding the finding of the Pa. P. S. Comm. in the P. R. T. Co. valuation case. The P. S. Comm. in June 1923 had found the value of the co.'s property to be substantially upwards of $290,000,000. V. 118, p. 2305.

Early in 1925 co. offered to its customers $3,000,000 (60,000 shs.) 7% cum. pref. stock. V. 120, p. 331; V. 122, p. 1449.

Early in 1926 offered $10,000,000 additional 7% pref. stock to its car-riders. V. 122, p. 1440.

On Aug. 19 1925, a tri-state bus line between Philadelphia and New York was placed in operation by the People's Rapid Transit Co. a subsidiary of the Philadelphia Rapid Transit Co. V. 121, p. 1103.

For contemplated issue of additional Preferred stock to finance extension of the lines of the company in the Sesqui-Centennial area, &c. See V. 121, p. 1349.

Rights.—Stockholders of record Jan. 29 1926 were given the right up to and incl. Feb. 15 to subscribe at par for new pref. stock in the ratio of one new share for each 2 shares of either pref. or common held. V. 122, p. 482.

Baltimore City Passenger Ry. Co.	Gwynn's Falls Railway of Baltimore City.

Baltimore & Northern Elec. Ry. Co.	Walbrook Gwynn-Oak & Powhatan

Acquisition & Lease of Maryland Electric Railways.—Early in 1924 the co acquired all the common stock of the Maryland Electric Rys. (stock so acquired is to be pledged under the mtge. of the United Rys. & Elec. Co.) which had recently consolidated with the Baltimore Halethorpe & Elkridge Ry. and Baltimore Sparrows Point & Chesapeake Ry., which had formerly been leased to the United Rys. & Elec. Co. The co. thereupon entered into a lease of the properties of the consolidated co. for a term of 999 years. Under the terms of the lease the United Rys. & Elec. Co. will pay an unconditional annual rental sufficient to cover maintenance, insurance, taxes, interest, and other charges, and a sum of not less than 2% per annum of outstanding Series "A" bonds of the Maryland Elec. Rys. to cover sinking fund and a fund for improvements, depreciation and obsolescence. For further details see description of the Maryland Electric Rys. below.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Miles of track, 415; serviceable cars, 1,907; gauge, 5 ft. 4½ in. Rails, 60-lb. to 129-lb. T and girder. Also operates buses.

Power Contract.—In Feb. 1911 entered into a 15-year contract with Pennsylvania Water & Power Co. for supplying power in conjunction with United Railways Co. for operation of cars. V. 92, p. 467. Also see below.

Sale of Power House—Contract, &c.—On Jan. 12 1921 entered into a perpetual power contract with the Consol. Gas, Elec. Lt. & Power Co. of Balto. The transaction involved the sale of the Railways, Pratt St. power house to the Gas Co. for $4,000,000. (Transferred on May 24 1921.) V. 112, p. 373.

Favorable Tax Decision.—On June 29 1909 the Court of Appeals of Maryland held that the park tax of 9% on gross earnings of lines within city limits was intended to be in lieu of all other taxes, and that no further tax on the intangible property can be levied without express legislative authority. The easements in 14 miles of turnpikes in annexed districts were held to be taxable. V. 89, p. 44.

In April 1913 Judge Bond in the City Court at Baltimore decided that the company must pay cost of repaving streets between tracks and 2 ft. on either side. See V. 96, p. 1090. On Aug. 5 1913, the Court of Appeals of Maryland reversed the ruling and unanimously held that company's obligation with respect to the track area was to repair and not to re-pave. In Feb. 1916 the same court again held that co. is required merely to keep its tracks in repair.

Fares.—Effective June 1 1924, was auth. by the Md. P. S. Comm. to increase cash fares from 7 to 8 cents, with two tickets for 15 cents. V. 118, p. 2706. See also V. 119, p. 581. See also V. 122, p. 1612.

Of the outstanding capital stock, 75% had been deposited [in May 1922 it was stated that practically all the com. and pref. stock had been deposited. V. 114, p. 2242] under the noteholders' agreement, and the committee agreed to raise $250,000 immediately to liquidate the more pressing financial obligations of the company, including $83,500 interest on underlying bonds, which was due March 1 1920, accumulated taxes of $77,000, interest on equipment trust notes amounting to $4,000, and current bills. STORIES OF COLUMBIA SERVICE — No. II ELECTRIC DISTRIBUTION

Columbia Power Station, Columbia Park (near Cincinnati), Ohio. Initial installed generating capacity 90,000 K.W. Dedicated to public service December 10, 1925.

The area served with electricity directly by Columbia System extends from Piqua, Ohio, on the north, through the cities of Dayton, Middletown, Hamilton, Washington Court House and Cincinnati, Ohio, and includes Covington and Newport in Kentucky. These cities, together with the intermediate and surrounding territory, have a total population of close to a million.

The vigorous, consistent growth in electrical business of Columbia System during recent years is indicated by comparative annual statistics presented in the 1925 Annual Report.

	Electrical Revenues	*System Peak Load (Kilowatts)*	*K.W.H. Generated and Purchased*	*Electrical Customers*
1921	**$2,969,163.54**	**75,000**	**281,984,073**	**77,514**

1925	**7,430,287.45**	**199,000**	**734,625,184**	**236,497**

This substantial development has resulted largely from the policy of Columbia System management which has injected highly organized sales methods into the commercial field of its public utility operations.

This is the second of a series of advertisements in which we propose to give you detailed information of the services performed by Columbia System companies for these communities, their industries and their homes. Investment in Columbia System securities is, in a real sense, investment in the marvelous Ohio Valley.

CLEVELAND RAILWAY CO.

The receivers of the *Municipal Traction Co.* having been discharged and the debts of that company provided for, the Cleveland Ry. Co. on March 1 1910 resumed possession of its lines under ordinance (see below) of Dec. 1909. V. 90, p. 626. The lease to *Municipal Traction Co.* was canceled of record.

Franchise Ordinance—Valuation.—For particulars see "Electric Railway" Supplement of April 26 1924.

ORGANIZATION.—In 1908 changed name from the Cleveland Elec. Ry. Co. (which had in 1903 taken over the Cleveland City Ry.) to Cleveland Ry. Co., and authorized new stock to the amount of $35,000,000. The old stock of Cleveland Elec. Ry. was given a valuation of $55 per share, or $12,870,000 (having formerly been $23,400,000) and was paid for in new stock issued by Cleveland Ry. at par ($100 valuation). The Forest City Ry. (which had first absorbed the Low Fare Ry.) was purchased for $1,805,600 stock of Cleveland Ry., the shares of the Forest City Ry. being accepted at their par ($100) value.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Operates 416.6461 miles of single track, of which 378.7663 miles are owned. Mostly 80, 95, 100, 103 and 141 lb. standard rails; 1,517 passenger cars and 218 service cars; 31 single deck and 30 double deck auto coaches.

Increased Interest on Capital Stock Voted Down.—The Cleveland City Council on Dec. 29 1919 formally granted an increase in the company's interest rate from 6 to 7% in accordance with the recommendations of a majority of a Board of Arbitration (V. 109, p. 2262; V. 110, p. 261) who conducted an inquiry into this question. On Aug. 10 1920, however, this question was submitted to a referendum vote and defeated. V. 111, p. 692, 1565. Compare V. 110, p. 2387; V. 111, p. 389.

The company on April 1 1920 paid 1¼%, but subsequent int. payments are being paid at the old rate of 1½% quarterly. The city has brought suit to compel the company to pay back into the interest fund the $72,000 paid out in int. over the regular rate on April 1 1920. V. 111, p. 1182, 1277, 1565. In Apr. 1926 the case was pending.

Street Ry. Co. For terms of settlement see V. 118, p. 1011. Having purchased on Nov. 1 1925, all of the rights of the *Cincinnati Traction Co.* (which was owned by *Ohio Traction Co.*), Cincinnati Street Ry. Co. purchased as of April 1 1926 all of the property of *The Cincinnati & Hamilton Traction Co.*, the lease of which property it purchased from the Ohio Traction Co. See for description of the above mentioned companies which are in process of dissolution, "Public Utilities Compendium of Oct. 31 1925. In Oct. 1925 the issuance of 85,000 shares of stock (par $50) was under preparation, to be delivered to the Cincinnati Traction Co. as part payment in cancellation of the lease. V. 121, p. 2037. In the same month $4,500,000 1st mtge. 6% notes were sold (see hereunder), approx. $1,240,000 of the proceeds of which was to be paid to the Cincinnati Traction Co. as part of the settlement, while $1,393,000 were to be used for paying off the bonds of the Ohio Traction Co., assumed in the settlement. The pref. and common stock committees of Cincinnati & Hamilton Trac. Co. ($1,100,000 common and $1,100,000 pref. stock was outstanding) recommended in March 1926 a division of this Cincinnati Street Ry. Co. stock in the ratio of 4 to 1, viz., $800,000 to go to pref. and $200,000 to common stock. Co. thereafter to be liquidated.
